RESEARCH SUMMARY

15	307	8	7	3.86	36%
Publications	Citations	h-index	i10-index	Field-weighted impact	World top 10%

Counted from the 15 publications listed below, 2007–2026. Field-weighted impact is the mean over the 11 works scored for it; 1.00 is the world average for works of the same field, type and year. 4 of the 11 papers scored for it are among the world's most cited tenth for their field, type and year.
