| Publications | Citations  | h-index  | i10-index | Field-weighted impact | World top 10% |

Counted from the 17 publications listed below, 2010–2026. Field-weighted impact is the mean over the 9 works scored for it; 1.00 is the world average for works of the same field, type and year. 2 of the 9 papers scored for it are among the world's most cited tenth for their field, type and year.
