RESEARCH

Interests Water and sanitary engineering · Non-sewered sanitation systems · Dry sanitation technologies
Areas Nutrition and Dietetics · Waste Management and Disposal · Biomedical Engineering · Urban Studies · Water Science and Technology · Ecology

RESEARCH SUMMARY

46	368	10	12	1.00	9%
Publications	Citations	h-index	i10-index	Field-weighted impact	World top 10%

Counted from the 46 publications listed below, 1992–2025. Field-weighted impact is the mean over the 32 works scored for it; 1.00 is the world average for works of the same field, type and year. 3 of the 32 papers scored for it are among the world's most cited tenth for their field, type and year.
